

Building a Garage or Shed?

Do you need a permit?

A Development Permit and Building Permit are not required for the construction or installation of an accessory building that does not exceed 9.5 square meters in area and 2.5 meters in height, provided that the structure is portable and not fixed on a permanent foundation or concrete pad.

An accessory building **cannot**:

- Be closer than 2 meters to the principal dwelling unit.
- Be in the front yard.
- Be closer than 0.6 meters to the side and rear property lines (or as stipulated in building code regulations).
- Be greater than 6.5 meter in height, or the height of the principal dwelling unit, whichever is less. In mobile home districts it cannot exceed 4.5 meters in height.
- There shall be no more than 2 accessory buildings per site.
- Combined floor area of accessory buildings on a property shall not exceed the main floor area of the principal dwelling.
- A garage that accesses a lane of 8 meters in width or larger shall have a driveway length of at least 1 meter.
- A garage that accesses a lane less than 8 meters in width shall have a driveway of at least 3 meters.

Please fill out the attached sheets and create a site plan in order to provide all relevant building information for your permits.
