

### ROSEDALE PARK

Stettler's northside neighborhood of Rosedale looks a little different today after local Kin Clubs of Stettler have essentially wrapped up a playground revitalization project at 50th A Ave and 60th St.

Kin representatives, along with Parks and Leisure Services staff worked with BDI Play Designs over the past 2 years to establish an overall vision and design for the playground during the months of August and September.

The overall design was built around inclusion with limited issues around access incorporating the following 4 principles:

1. Focus on design for Access and Mobility
2. Engaging All Abilities
3. Incorporating Diverse Types of Play
4. Inclusive for the Whole Community

The park will be open during the fall but plans are for an official grand opening some time in the spring after the remaining landscaping and other finishing touches are completed.
